Thought of the Day

"The universe doesn't give you what you want you ask for with your thoughts; it gives you what you demand with your actions"

- Dr Steve Maraboi

Word of the Day

*tenable \ 'te-nə-bəl \ adjective
: based on sound reasoning or evidence*

eg. "The concept of things going back to some historical fixed condition is really just no longer tenable," said Patty Glick, a senior scientist for climate adaptation at the National Wildlife Federation and one of the lead authors of the document.

KEVIN MITNICK

Designed by Ankur Raj.

[SSL]

Kevin Mitnick likely holds the title as the world's best hacker ever. Kevin Mitnick started hacking at an early age. He broke into the realm of public attention in the 1980s after he hacked into the North American Defense Command (NORAD). There is a hacker attack every 39 seconds. A Clark School study at the University of Maryland is one of the first to quantify the near-constant rate of hacker attacks of computers with Internet access— every 39 seconds on average, affecting one in three Americans every year —and the non-secure usernames and passwords we use that give attackers more chance of success 43% of cyber attacks target small business 64% of companies have experienced web-based attacks. 62% experienced phishing & social engineering attacks. 59% of companies experienced malicious code and botnets and 51% experienced denial of service attacks. small organizations (those with fewer than 500 employees) spend an average of \$7.68 million per incident.

DID YOU KNOW?

McKinnon was accused of hacking into 97 United States military and NASA computers over a 13-month period between February 2001 and March 2002, at the house of his girlfriend's aunt in London, using the name 'Solo'.
